### A commitment to the future while preserving the past

Our historic library has served Fairbury for a century. Libraries have evolved into community centers of education and enlightenment.

The library Board of Trustees is committed to maintaining and expanding our historic structure. We enthusiastically present a building design that complements our present library.

#### Fortunately our library has:

- Space for expansion
- Plenty of available public parking
- A high traffic location in the heart of our community.

### The proposed expansion and renovation would provide these services to our community:

- Room to expand our book, audio-video collection and electronic media services
- Accessibility for the physically challenged
- Public rooms that could accommodate 8 to 105 people
- Space to increase the number of computers for public use
- Separate, but visible, reading areas for children, young adults and adults
- Room for well-attended programs for children and adults
- Space for area families who home school their children

Libraries are reservoirs of strength, grace and wit, reminders of order, calm and continuity, lakes of mental energy, neither warm nor cold, light nor dark . . . In any library in the world, I am at home, unselfconscious, still and absorbed.
